Company history

We are producer of measuring and automatic control systems. Our company was founded in 1988 by Claus Goldammer in Mettmann, Germany.

Quality and reliability is the ultimate ambition of our company founder and managing director Claus Goldammer and highly motivated employees in the parent company as well as in its agencies all over the world.

It's our task to meet the individual and challenging requirements of our customers and to offer a flexible product of high quality for a reasonable price.

Since 16.th of February 2009 our company is certified according to ISO 9001:2008.

Product range

Our product line comprises

- “ Level regulators for tank insert with level contacts
- “ Level controller for surface mounting with level contacts or continuous output signal
- “ Level-Temperature Regulators for tank insert with continuous output signal
- “ Level-Temperature Regulators for tank insert with continuous output signal and LED display
- “ Level-Temperature Regulators for tank insert with adjustable contacts and LED - display
- “ Level Temperature-Capillary tube Regulators
- “ Temperature transducers with continuous output signal
- “ Resistance thermometers
- “ Temperature Monitors
- “ Water indicators without and with LED - display
- “ Water indicators with housing for tank connection
- “ Level-Controllers with venting filters

We also have a large program in explosion-proof versions in these executions.

We are specialized in serial production and also special executions.

Level regulator for tank insert series IN

- “ different tank connections available
- “ with fixed or adjustable level contacts
- “ optional with temperature monitoring
- “ optional explosion-proof version

**Level regulator for
surface mounting
series AM**

- “ optional with single contact
- “ output signal 4 - 20 mA available
- “ contaminated media
- “ optional with LED - display

**Level regulator for
tank insert
series MA**

- “ different tank connections available
- “ Output signal 4 - 20 mA for temperature and fixed and adjustable level contacts
- “ Level regulator with standard length 250, 370, 500, 800, 1000, 1100, 1200, 1300, 1400, 1500 mm
- “ Output signal 4 - 20 mA for level and temperature

**Indicator Level regulator
for tank insert with LED
display series IND**

- “ different tank connections available
- “ Level-temperature regulator with temperature LED display with fixed or adjustable level contacts and 4 - 20 mA temperature output
- “ Level regulator with standard length 250, 370, 500, 800, 1000, 1100, 1200, 1300, 1400, 1500 mm for level and for level and temperature
- “ Output signal 4 - 20 mA for level and temperature with LED - display
- “ Indicator with 3 PNP level outputs and 3 PNP temperature outputs with LED - display
- “ Optional all executions also with remote installation

Level - Temperature -
Capillary tube -Regulator
series NT

- “ different tank connections available
- “ with fixed or adjustable level contacts
- “ optional with temperature monitoring
- “ optional explosion-proof version
- “ 1 - 4 adjustable thermostats
- “ Optional with temperature display

Temperature – monitoring series TR

- “ Temperature - Capillary tube - Regulator with 1 - 6 adjustable thermostats and optional with temperature display
- “ Temperature – Transducer with output signal 4 - 20 mA
- “ Resistance - Thermometer Pt 100 for direct temperature measurement
- “ Temperature - Monitor with thermal contact
- “ optional explosion-proof version

**Indicator Temperature
Electronic-Regulator
series IND6xx**

- “ Indicator with 3 adjustable temperatures, optional with 4 - 20mA or Pt 100 output and LED - display
- “ Temperature transducer with 4 - 20 mA output and LED - display
- “ optional all executions also with remote installation

Water Indicator series WM

- “ detects water in oil
- “ density or conductivity measurement
- “ output signal 4 - 20 mA with LED - display and optional relay outputs

Level Regulator with
ventilation filter series
BL

- “ optional with temperature monitoring
- “ optional with single contact, output signal 4 - 20 mA
- “ optional with optical analogue low pressure gauge
- “ with adjustable contact cartridge 03 and temperature output 4 - 20 mA
- “ with output signal 4 - 20 mA, optional with digital temperature indication
